

Dear Primary Care Provider:

Thanks to a generous grant from the Health Foundation of Western and Central New York, we are able to provide a Chronic Kidney Disease Resource Guide for Primary Care Practitioners. The materials are a combination of materials from the Kidney Foundation of Western New York and materials from the National Institute of Diabetes and Digestive and Kidney Diseases.

Please contact us if you are interested in receiving a printed booklet. We've also compiled some core materials below if you wish to print them out individually.
